

EVERYTHING UNDER THE SUN

The Heliocare range has a sun protection product to suit everyone:

Heliocare Silk Gel **SPF30**

With technologically advanced UVA/UVB filters, anti-microbial and anti-inflammatory properties, it is suitable for acne-prone skin.

Heliocare Gel **SPF50**

Oil-free gel designed for everyday use and suitable for combination, oily and blemish-prone skin.

Heliocare XF Gel **SPF50**

Gel designed for everyday use that is suitable for dry/mature skins.

Heliocare Spray **SPF50**

SPF50 non-greasy spray ideal for the body and for children.

Heliocare Gelcream Color (Light/Brown) **SPF50**

Facial foundation providing advanced UV protection with skin tone enhancement and correction. Available in two shades.

HELLO

**YOU LOVE THE SUN.
NOW YOUR SKIN CAN TOO.**

SUNSCREENS ARE NOT ENOUGH

Everyone knows that sunscreens protect the skin against burning. UVB rays are mainly responsible for sunburn, which is why most conventional sun care products contain UVB filters.

There is no doubt that today's modern lifestyle demands more than just protection against sunburn.

UVA rays penetrate deeper into the skin and have more damaging long-term effects, which results in premature skin ageing and can also contribute to skin cancer.

UVA RAYS
(AGEING)

UVB rays are mainly responsible for sunburn.

UVC RAYS

UVC rays are absorbed by the ozone.

OZONE LAYER

HELIOCARE IS MUCH MORE THAN JUST A SUNSCREEN

Heliocare contains a range of botanical extracts with powerful antioxidants that provide high-level, broad-spectrum protection against both UVA and UVB rays and prevent damage to skin cells. It also promotes anti-ageing by stimulating the collagen in the skin and neutralising free radicals. Not only does Heliocare protect the skin and help to prevent damage, it has also been clinically proven to repair cellular DNA damage in the skin.

SUNBLOCK, WE CALL IT **FERNBLOCK®**

The Heliocare range contains Fernblock®, a natural sun protection substance, extracted from the fern plant of Central and South America. Fernblock® neutralises free radicals and repairs damage caused within cells by UV radiation!
